

9-Hole Box Subject Bibliography

General

18. Robbins, T.W., Muir, J.L., Killcross, A.S., and Pretsell, D.S. (1993) Methods for assessing attention and stimulus control in the rat. In behavioural Neuroscience. *A Practical Approach Volume 1*, edited by A Sahgal, IRL Press at Oxford University Press, pp. 13-147.

Mouse Box Studies

31. Humby, T., Laird, F.M., Davies, W. and Wilkinson, L.S. (1999) Visuospatial attentional functioning in mice: interactions between cholinergic manipulations and genotype. *European Journal Of Neuroscience* **11**, 2813-2823.

Marston HM, Spratt C, Kelly JS. (2001) Phenotyping complex behaviours: assessment of circadian control and 5-choice serial reaction learning in the mouse. *Behav Brain Res.* **125(1-2)** pp189-93

Isles AR, Humby T, Wilkinson LS. (2003) Measuring impulsivity in mice using a novel operant delayed reinforcement task: effects of behavioural manipulations and d-amphetamine. *Psychopharmacology (Berl)*. **170(4)** pp 376-82

Bensadoun JC, Brooks SP, Dunnett SB. (2004) Free operant and discrete trial performance of mice in the nine-hole box apparatus: validation using amphetamine and scopolamine. *Psychopharmacology (Berl)*. Feb 19 [Epub ahead of print]

Trueman RC, Brooks SP, Dunnett SB. (2005) Implicit learning in a serial choice visual discrimination task in the operant 9-hole box by intact and striatal lesioned mice. *Behav Brain Res.* 159 pp 313-322

Psychopharmacological and Neuropsychological Studies

General Papers

Reviews

32. Robbins, T.W. and Brown, V.J. (1990) The role of striatum in the mental chronometry of action: A theoretical review. *Reviews in the Neurosciences*, **2**, 181-213.

34. Robbins, T.W., Everitt, B.J., Muir, J.L. and Harrison, A. (1992) Understanding the behavioural functions of neurochemically defined Arousal systems. *IBRO News*, **20**, 7.
39. Robbins, T.W. (1998) Arousal and Attention: Psychopharmacological and neuropsychological studies in experimental animals. *The Attentive Brain*, R Parasuraman (Ed). Cambridge, MA: MIT Press.
41. Robbins, T.W. and Everitt, B.J. (1995) Arousal systems and Attention. *The Cognitive Neurosciences*, (Ed. M. Gazzaniga et al), MIT press, Cambridge MA, 703-720.
64. Robbins, T.W. (2002) The 5-choice serial reaction time task: behaviour pharmacology and functional neurochemistry. *Psychopharmacology*, **163**, 362-380

Alzheimer's Disease

5. Etherington, R.E., Mittleman, G., and Robbins, T.W. (1987) Comparative effects of nucleus basalis and fimbria-fornix lesions on delayed matching and alternation tests of memory. *Neurosci. Res. Comm.* **1**, 135-143.
12. Robbins, T.W., Everitt, B.J., Marston, H., Wilkinson, J., Jones, G.H. and Page, K.J. (1989) Comparative effects of ibotenic acid- and quisqualic acid-induced lesions of the substantia innominata on attentional functions in the rat: further implications for the role of the cholinergic neurons of the nucleus basalis in cognitive processes. *Behav. Br. Res.* **35**, 221-240
17. Muir, J.L., Dunnett, S.B., Robbins, T.W., and Everitt, B.J. (1992) Attentional functions of the forebrain cholinergic system: Effects of intraventricular hemicholinium, physostigmine, basal forebrain lesions and intracortical grafts on a multiple choice serial reaction time task. *Experimental Brain Research*, **89**, 611-622.
19. Muir, J.L., Robbins, T.W. and Everitt, B.J. (1994) AMPA-induced lesions of the basal forebrain: a significant role for the cortical cholinergic system in attentional function. *J. Neuroscience*, **14**, 2313-2326.
21. Muir, J.L., Everitt, B.J., Robbins, T.W. (1995) Reversal of visual attentional dysfunction following lesions of the cholinergic basal forebrain by physostigmine and nicotine, but not by the 5HT-3 antagonist, ondansetron. *Psychopharmacology*, **118**, 82-92.
22. McAlonan, G., Dawson, G., Wilkinson, L.O., Robbins, T.W., and Everitt, B.J. (1995) The effects of AMPA-induced lesions of the medial septum and vertical limb nucleus of the diagonal band of Broca on spatial delayed non-matching to sample and spatial learning in the water maze. *European J Neuroscience*, **7**, 1034-1049.
24. Muir, J.L., Bussey, T.J., Everitt, B.J., and Robbins, T.W. (1996) Dissociable effects of AMPA-induced lesions of the vertical limb diagonal band of Broca on performance of the 5-choice serial reaction time task and on acquisition of a conditional visual discrimination. *Behavioural Brain Research* **82**. 31-44.
31. Humby, T., Laird, F.M., Davies, W. and Wilkinson, L.S. (1999) Visuospatial attentional functioning in mice: interactions between cholinergic manipulations and genotype. *European Journal Of Neuroscience* **11**, 2813-2823.

33. Muir, J.L. Robbins, T.W. and Everitt, B.J. (1992) Disruptive effects of muscimol infused into the basal forebrain: on conditional discrimination and visual attention: Differential interaction with cholinergic mechanisms. *Psychopharmacology* **107**, 541-550.
35. Muir, J.L. Page, K.J., Sirinathsinghji, D.J.S., Robbins, T.W. and Everitt, B.J. (1993) Excitotoxic lesions of the basal forebrain cholinergic neurones: effects on learning, memory and attention. *Behavioural Brain Research*, **57**, 123-131.
36. Robbins, T.W., McAlonan, G., Muir, J.L. and Everitt, B.J. (1997) Cognitive enhancers in theory and practice: studies of the cholinergic hypothesis of cognitive deficits in Alzheimer's disease. *Behavioural Brain Research*, **83**, 15-23.
37. Warburton, E. C., Harrison, A. A., Robbins, T.W. and Everitt, B.J. (1997) Contrasting effects of systemic and intracerebral infusions of the 5-HT_{1A} receptor agonist 8-OH-DPAT on spatial short-term working memory in rats. *Behavioural Brain Research* **84**, 247-258.
38. Everitt, B.J. and Robbins, T.W. (1997) Central cholinergic systems and cognition. *Annual Review of Psychology*, **48**, 649-684.
43. Sirvio, J., Jakala, P., Mazurkiewicz, M., Haapalinna, A., Riekkinen, P. Jr. and Riekkinen, P.J. (1993) Dose- and parameter- dependent effects of atipamezole, an alpha 2-antagonist, on the performance of rats in a five-choice serial reaction time task. *Pharmacol. Biochem. Behav.*, **45**, 123-9.
44. Sirvio, J., Mazurkiewicz, M., Haapalinna, A., Riekkinen, P. Jr., Lahtinen, H. and Riekkinen, P.J. Sr. (1994) The effects of selective alpha-2 adrenergic agents on the performance of rats in a 5-choice serial reaction time task. *Brain Res. Bull.*, **35**, 451-5.
